

Custom software, websites, and connected business systems.

NEWPORT, NORTH CAROLINA · CARTERET COUNTY

About Wade Media

Based in Newport, North Carolina, Wade Media designs and develops marketing websites, ecommerce experiences, client portals, internal tools, and automations. Each project starts with how the business actually works—how people discover it, buy, get onboarded, and move through delivery—then connects the public experience to the systems behind it. Wade Media is rooted in Carteret County and works with teams locally and beyond.

Capabilities

Marketing websites

Clear, fast public experiences shaped around the offer.

Custom software

Portals, internal tools, and web applications built for the workflow.

Ecommerce systems

Products, services, checkout, and billing connected cleanly.

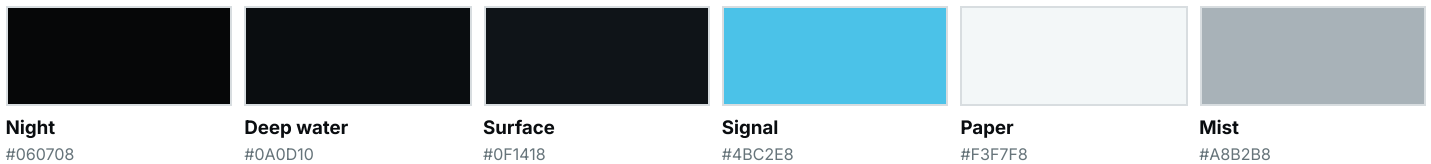

Automation + support

Integrations, handoffs, and ongoing improvements after launch.

Use the supplied artwork without recoloring, stretching, cropping, rotating, or adding effects.

Core palette

DISPLAY

Avenir Next

Built around the real work.
